**Bond Renewal Date:** now

**Bond Amount:** \$1,600

**Permit fee** up to date

#### Purpose of Inspection:

The purpose of this inspection was to evaluate the mining operation and validate the size of the disturbance. The operator has also requested that his bond remain at a reduced amount based on the amount of disturbance. The minimum bond for an acre of disturbance is \$6,300.

#### Inspection Summary:

The site has expanded slightly. We attempted to GPS the site but due to problems with the GPS this was not possible. The GPS map was generated was in 2006 and the disturbance was approximately .4 acres. There was evidence of oil spills on site.

#### Conclusions and Recommendations:

The operator be required to post a larger bond and fix the machinery to avoid any further spills.
